

(C) 2020 HallAngelo.

This is number two. Solutions will appear on <https://www.stack.nl/~angelo/> in february of the new year. Fonts used - Bank Gothic on the front, Asap for the rest. All puzzles are original designs by me, Angelo Wentzler. Puzzle layouts done in Adobe Illustrator and InDesign. Paint by numbers design created with LEGO, the best toy on Earth. I hope the resulting picture is not too underwhelming. Why are you still reading this, get to solving! No Christmas traditions were harmed during the production of this card.

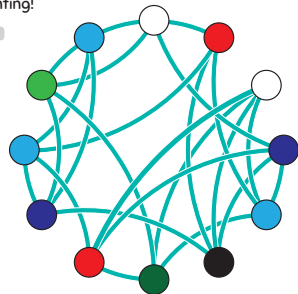

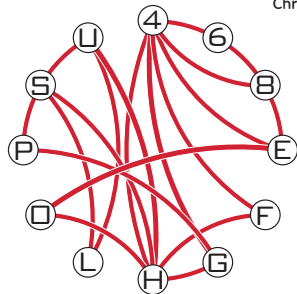

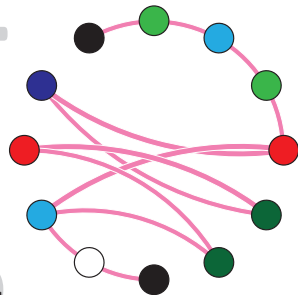

1
Match up nodes in each pair of identical graphs to find the colours for all symbols.

2
Fill in all the colours on the front and voilà, your own Christmas painting!

Dear friend,

I hope you survived the year in one piece. 2020, what a year. Thankfully it's almost over. I found that what challenged me the most was to still find ways to connect with people. I mean, we coped, sure, using all our online tools, but there is really nothing like meeting face to face, is there?

So the theme for this year's puzzle is connections. I made it a bit prettier, but not too hard.

Here's to the new year, one in which I hope we will once again spend time together, in the flesh. It will be sweet to reconnect, won't it, to see eye to eye. To roll a die or two, and move a few pawns across the board; to shake hands at the end of a game well played...

Here's to friendship, and good health, and happy days. Hug your loved ones for me.

Here's to hope for the future. Let's make it happen.
