This is number three. Solutions will appear on <https://www.stack.nl/~angelo/in> February of the new year. Fonts used - Papyrus on the front, Asap for the rest. All puzzles are original designs by me, Angelo Wentzler. Puzzle layouts done in Adobe Illustrator and InDesign. Special thanks to Ad for valuable feedback. Yes, all the balls are different. Why are you still reading this, get to solving! No Christmas traditions were harmed during the production of this card.

Dear friend,

Boy, I bet you never expected to still be dealing with covid as we approach 2022, huh, but here we are. Turns out 2021 wasn't that much better than 2020, after all, but I still hold out hope that our good sense will prevail. Let us set the good example and embrace the Christmas spirit.

I find myself in good health and not too bad spirits, and I hope that's the least that can be said for you and yours as well.

On to the puzzle. This year's mission, should you choose to accept it, is to create order out of chaos. If only it were this simple in real life!

Best wishes and love, and hope to see you soon.
